Professional Summary

Computer Science student with a strong academic background and hands-on experience in artificial intelligence databases and software development fundamentals. Passionate about AI web development and cybersecurity. Strong problem-solving, teamwork, and analytical skills demonstrated through academic projects, hackathons, and training programs. Seeking internship or fresh graduate opportunity in AI or Software Development.

Education

- Bachelor of Computer Science – Expected 2026
- Diploma in Computer Networking – 2018

Experience

Administrative Intern – School System (Noor System)

- Entered and managed student data using the Noor System
- Recorded grades and prepared academic reports
- Performed administrative and documentation tasks
- Gained exposure to educational administrative workflows

Courses & Certifications

- Fundamentals of Artificial Intelligence
- Artificial Intelligence Concepts and Advanced Applications
- Introduction to Information Security (Cybersecurity Basics)
- Digital Technologies for Administrative Work (Secretarial Skills)
- Participation in programming training camp (9 programs in programming and AI) organized by College of Computer Science and Engineering Club
- Participation in NewTech Hackathon
- Web Development track training (UI design, website building, and solution development)
- Governance and Risk Management fundamentals

Projects

- Afseh – AI Communication Bridge
 - Graduation project in Computer Science
 - Uses AI to convert unclear speech into clear text and natural audio
 - Designed to support individuals with speech disorders
 - Focused on accessibility and real-world AI applications

Technical Skills

- Programming Languages:
 - Python (Basic), Java, C++, C#, MATLAB
- Databases:
 - SQL
- Other Skills:
 - UML System Modeling
 - AI Fundamentals
 - Basic Web Development

Languages

Arabic: Native English: Very Good (speaking, written, and reading)
